VIII. Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

Claims 1 to 5, 7 to 22, 24 to 26, 28 to 29, 31 to 35, 37, 38, 44 to 48 and 50 do not, or do not necessarily define a cochlear implant that incorporates a porous biocompatible material having a bioactive substance disposed therein. These claims define a wide variety of implantable devices which do not necessarily incorporate electrode assemblies and are not fully supported by the description which describes a cochlear implant.
